

NIKBA®

2016 Best Kitchen & Bath

Small Kitchen

David Heide | David Heide Design Studio | Minneapolis, MN
Co-Designer: Brad Belka

A Renewed Heritage

The clients dreamed of a functional, modern kitchen within the original footprint. The opening through the adjacent hall maintains easy connection to the dining room. The new countertop pass-through provides seamless transition from kitchen counter to the dining table. Coupling space-saving appliances and thoughtful storage solutions affords the kitchen new functionality. Counter level drawers below the open shelves hold spices and small articles. Cutouts in the doors and toe-kick provide for heat convection and celebrate period details. Historic millwork profiles maintain the home's Arts & Crafts heritage and are

juxtaposed with stainless steel appliances that add a present-day sensibility. Careful attention to necessary traffic patterns and the exploration of hidden opportunities achieved the owners' desire for a purposeful and functional modern kitchen.
